Yöntem ve Önemli Açıklama

Ethnologue kapsamı	Ethnologue'un 2026 "Ethnologue 200" ürünü, dünyadaki ilk 200 dili L1 (ana dil) ve L2 (ikinci dil) kullanıcılarını birlikte dikkate alarak sıralar. Halka açık resmî bir "ilk 300" listesi yayımlanmamaktadır.
Lisans sınırlaması	2026 Ethnologue 200 veri dosyası ücretli ve bireysel lisanslıdır; veri setinin yeniden dağıtılması açıkça yasaktır. Bu belge, o ücretli veri dosyasının kopyası değildir.
Bu belgenin ölçütü	300 dil arasında tutarlı bir karşılaştırma yapabilmek için ana liste yaklaşık ana dil / birincil dil konuşuru (L1) nüfusuna göre düzenlenmiştir. Rakamlar yuvarlatılmıştır ve kesin nüfus sayısı olarak değerlendirilmemelidir.
Dil-lehçe-makrodil farkı	Ethnologue ve ISO 639-3 bazı büyük dil kümelerini ayrı diller halinde sınıflandırır. Arapça, Çince, Kürtçe, Malayca, Fula ve Quechua gibi kümelerde kaynaklara göre farklı toplulaştırmalar görülebilir. Bu nedenle bazı üst başlıklar ile önemli çeşitler aynı listede yer alabilir.
Kullanım amacı	Liste; yayıncılık, çeviri, dijital içerik, uluslararası iletişim ve dil önceliklendirme çalışmalarında pratik bir başlangıç listesi olarak hazırlanmıştır. "Önem" yalnızca konuşur sayısı ile sınırlı değildir; resmî statü, coğrafi yayılım ve L2 kullanımı da ayrıca değerlendirilmelidir.

Belge alanları: Rank • Language (English) • ISO 639-3 • Estimated L1 Speakers

Ethnologue resmî metodolojisi ile bu listenin farkı: Ethnologue 200 toplam kullanıcıyı (L1+L2) esas alırken, aşağıdaki 300'lük ana liste yaklaşık L1 nüfusuna göre sıralanmıştır. Bu yüzden İngilizce, Fransızca, Endonezce ve Svahili gibi güçlü ikinci dil topluluklarına sahip diller, Ethnologue'un toplam kullanıcı sıralamasında burada görüldüğünden daha yukarıdadır.
